A Message from Barry

Thank you to all of our hotel owners and general managers who made the time to attend the Executive Leader Orientation (ELO) Workshop last April. I hope you have taken with you valuable insights that will enable you to lead your individual teams more effectively and succeed in reaching your goals.

I am sure with the exchange of ideas and best practices, you will be enriched with the knowledge from your peers as we work together as a team and establish ourselves as a global force.

Last month, we announced the openings of Ramada Incheon and Days Hotel Dongtan in South Korea. We are propelling this growth further and this month, I am pleased to share that our Development team has signed another five hotels in South Korea.

Under the franchise agreements, the newly-executed signings will include brands such as Ramada, Days Inn and Howard Johnson, which will add 2,008 rooms in the cities of Incheon, Yongin, Daejeon and Kimpo.

This is major news for Wyndham – we are currently the largest international player in Korea and will be tripling our current portfolio in the country to 40 hotels by 2018.

We are proving to be game-changers in our industry, launching Wyndham Rewards' new Member Levels targeting the everyday traveller and rewarding all members with new perks and free experience enhancements during award stays.

We are the first in the industry to offer redemption benefits as part of our *go free* PLUS and *go fast* PLUS awards, which includes curated local experiences. I am proud to announce that Singapore is the first in our region to be included in this special member experience and our Wyndham guests can enjoy breakfast while getting up close and personal with the endangered Orangutans at the world-acclaimed Singapore Zoo.

This is an exciting milestone for all of us and I urge you to make every effort to go above and beyond your call of duty to uphold and maintain the highest brand standards for the hotels you represent and deliver exceptional services to our guests.

Barry Robinson
President and Managing Director, South East Asia and Pacific Rim

Sales and Marketing Update

TravelClick Rollout

We are pleased to announce that our TravelClick reservation solution will be rolled out across Australia and New Zealand between now and August. All managed hotels will be integrated into this system and Wyndham Surfers Paradise will be the first to make the transition. The new system will give hotels additional tools such as Rate360 and Agent360, which analyse rate parity and competitiveness. By coming on board the TravelClick system, the hotels will gain direct connectivity and two-way integration with brand.com, which will allow bookings to be synchronised with our central reservation system, giving us access to accurate live data.

Social Media Campaign

The group's inaugural social media campaign across the South East Asia and Pacific Rim region is scheduled for a June launch. The campaign will highlight the new social

platforms we have developed for each hotel to extend our reach and drive engagement. More details from the Marketing team will be communicated in the coming weeks.

Increased exposure through TripAdvisor Instant Book

Wyndham Hotel Group has signed an exciting new agreement with TripAdvisor to participate in their new Instant Book program. This program allows guests to book their hotel directly through the TripAdvisor website—which means more visibility and potentially more bookings for WHG hotels!

How Does Instant Book Work?

If your hotel uses the WHG central reservations system (CRS), Instant Book reservations from TripAdvisor will:

- Be delivered directly to your Property Reservation Manager
- Use specific rate codes—STA and STA1 through STA7
- Include a 12% commission to be paid centrally to TripAdvisor for consumed bookings each month

TripAdvisor Instant Book feature, along with FAQs, has been posted on MyPortal for all brands except TRYP, Dolce and WHR. This only applies to hotels in the SEA region.

We are also in the process of securing the agreement for our hotels in the Pacific region.

Franchisee Workshop and Executive Leader Orientation Conference

A total of 26 owners and general managers joined us from Korea, Thailand, Indonesia, Singapore, Fiji, Philippines, Malaysia and Australia at the ELO conference which was held from 18 to 21 April at Ramada Plaza Melaka in Malaysia.

Ron Zolman, Training Manager from Wyndham Hotel Group's School of Hospitality Operations, conducted the three-day workshop and shared all the various resources available to help hotel managers succeed. These include MyPortal, Revenue Management Strategies and Wyndham Rewards. The workshop also touched on topics such as developing a strong customer experience culture, electronic distribution solutions and understanding your individual style of leadership.

The workshop allowed the attendees to learn about new marketing initiatives at a group level, meet key representatives from the Wyndham Hotel Group team, build their personal network and share best practices with their peers from the different regions.

The attendees also had the opportunity to enjoy a river cruise and rooftop dinner at the Pampas Sky Lounge located at The Shore Melaka. It was the first Franchisee Workshop and ELO Conference held for our region and we look forward to hosting future conferences.

"The ELO course was one of the best hotel conferences I have attended. What was covered and what we learned will go a long way in creating more revenue and better guest experiences at our hotel. Also, having support staff there from head office was really helpful as we could ask questions and get advice from them as well."

Tim Howell, Revenue Manager, Ramada Suites Zen Quarter, Darwin

'... Attending ELO was really worthwhile. It has boosted my knowledge and capabilities in achieving excellence as a Ramada-branded resort."

Rohit Lal, Hotel Manager, Ramada Suites Smugglers Cove Fiji

"I had a great time at the ELO. Not only for the training but also for the networking opportunities, brainstorming on hotel operation and sales and marketing strategies. The most interesting part for me was The 8 Dimensions of Leadership, which taught me the strategies on becoming a better leader."
